

# Greeting

Founded in 2011, AIRVISION is a company specialized in building clean room and has grown up building clean room for operating room, and negative pressure room in the semi-conductor company, pharmaceuticals, hospital and food company, etc. Based on the know-how accumulated there, we developed the AIRVISION filter and the Viruskeeper filter and are striving for purifying the indoor air in all the spaces that the people are breathing such as home, office, business site, factory, etc.

As a results, recognized as the company specialized in the quality of indoor air in our country and overseas, AIRVISION not only provides the world top class of clean room but also is engaging in R&D constantly to fulfill our motto of "Clean and clear air is healthy life".

One of them is the indoor air safe zone business utilizing AIRVISION filter (or Viruskeeper filter) and we are carrying out this business under the objective "Make the people in the world breath indoor safely".

In future, we will grow up together with the customer, step forward to improve the indoor air quality and lead the 21st century's future environmental industry with the trust and the creativity.

All the executives and employees of AIRVISION Co., Ltd.

## Business Area
