## Group Structure Chart

## About us

With more than 15 years of experience in the field of machine design support, precision mechanical processing and machine manufacturing, IDEA Group is proud to be a trusted partner of more than 250 companies in Japan, the United States, and other countries in the world. We are committed to quality and delivery time, providing creative, effective, and cost-optimized solutions.

Our business philosophy: "Customer Centricity, Employees are our core pillar, Technology is our foundation", we not only focus on customer satisfaction but also attach importance to the development of customers. Maintaining a team of more than 230 professional personnel, passionate about machine design and manufacturing. This helps us constantly improve service quality, meeting all requirements, even the most complex projects.

## CAD DESIGN SERVICE

After more than 15 years of operation in the field of machine design and manufacturing, IDEA Group has always been highly appreciated by partners and customers from Japan and the United States for its professional design capacity to handle requirements quickly, not only strictly complying with quality assurance but also focusing on the committed implementation time. Currently, we have been providing services to more than 225 business customers from countries requiring high quality such as Japan and the United States.

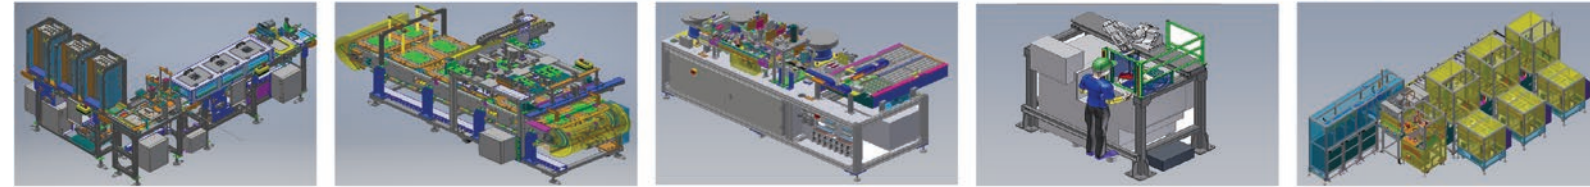

IDEA Group emphasizes the importance of customers and employees in all business activities. We believe that customer satisfaction is the key to our success. Therefore, IDEA Group always strives to take care of customers, listen, understand and solve customer problems as quickly and effectively as possible.

In addition, to ensure that we provide the best service to our customers, we also attach great importance to the role of our staff. Our team includes 135 young, enthusiastic design engineers who were graduated from top universities in the field of mechanical engineering and machine manufacturing in Vietnam and are constantly learning. They are proficient in at least three design software, we confidently affirm that our team is a solid foundation for every project, ensuring the ability to flexibly respond to all requests from customers, helping to solve problems about the shortage of design engineers, reduce costs, increase production efficiency.

**15+**  
Years in business

**135+**  
Design engineers

### Core Capabilities for CAD Design Services

1. 15 years in business
2. Design and drafting staff: 135 people
3. Supported languages: English, Japanese
4. The design cost is 1/2 of Japan, 1/3 of America
5. Compatible software: AutoCAD, Inventor, Solidworks, ICAD/SX, BrisCAD, REVIT, PLANT 3D, IronCAD

\* We will make a few samples free of charge so that you can evaluate the unit price and quality of the drawings.

### Our services

 2D / 3D drawing tracing  
CAD data input

 Parts disassembly from assembly drawing  
parts drawing creation

 Machine design support contract

 3D modeling creation

 Sheet metal fabrication

 Strength calculation and analysis

 Machine simulation

 Other design and drafting contracts

### Industries We Serve:

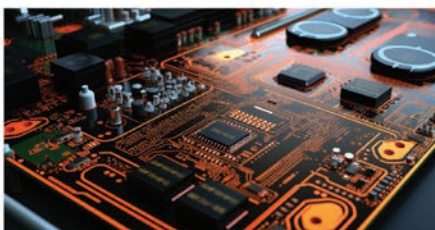

Manufacturing

Automotive

Food and Beverage

Electronics

Consumer goods

Construction

# PRECISION MECHANICAL PROCESSING

Product quality and on-time delivery are IDEA Group's two top priorities when fulfilling orders. We receive a lot of positive feedback from Japanese and US customers. The attainment of such accomplishments can be attributed to:

**Strict quality management system:** By applying the ISO 9001:2015 quality management system, we focus on management from materials, processing, post-processing inspection of quality and appearance. product management through to packaging and delivery.

**Modern processing machinery:** We own many advanced processing machines and measuring instruments from leading brands such as Okuma, Mazak and Mori Seiki, capable of processing and processing orders that require high precision.

**Partner network:** IDEA Group also has a network of joint venture companies and partners that help us flexibly handle orders from single orders to mass production.

# MACHINE MANUFACTURING

With a team of more than 60 engineers with professional knowledge and many years of experience, graduated from top technical universities in Vietnam, we have strengths in designing from concept to manufacturing, to complete product assembly and delivery to customers.

Up to now, we have successfully delivered more than 500 machines and automation systems including: Sorting machines, packaging machines, assembly machines, automatic inspection machines,... serving in fields such as : Manufacturing, Automotive, F&B, Electronics. Our typical customers are: NIDEC, MABUCHI, P&G, SIEMENS,...

Regarding after-sales policy, we provide periodic maintenance and repair services to ensure that the machines operate smoothly and stably.

Let us accompany your business in turning ideas into reality.

**60+**  
Engineers

## Certification

Our company is continuously striving to obtain and maintain important certifications such as ISO 9001:2015. This not only demonstrates our commitment to quality but also reinforces our credibility in the global market. We believe that having these certifications will strengthen our customers' trust in our products and services. We are also undergoing the necessary procedures to achieve additional certifications, ensuring that all our production and management processes adhere to the strictest standards.
